On Wednesday evening April 28 the commencement exercises will be held at the church at eight o'clock with Prof. J.L. Clifton of the Department of Education, Ohio State University delivering the class address.

Nile Township

High School previously. Transportation to the grade building provides for a certain amount of consolidation. No more beautiful site for school purposes can be found than the four-acre lot on which the new building is located. Ample opportunity for recreation will thus be afforded to the boys and girls, now regarded an essential to any well organized school.

The old two-room building at Friendship presents a sharp contrast to the splendid new six-room grade and high school building recently erected. A Third Grade Charter was secured for the high school in 1926. High School work was attempted in Nile township for the first time in 1925 pupils having been transported to the Portsmouth

Original building completed in 1924 containing six classrooms and eight teachers. Additions to building made in 1936 and 1953, an annex in 1957.
